

Lab Services Acknowledgement & Consent

I understand and agree to the following:

I am responsible to pay a nominal service fee for blood draws and other lab services at HSH as I have chosen to have my blood drawn at HSH. I do have the option to choose to have my blood drawn elsewhere.

Patients are responsible to tell the provider who draws the blood and processes the order which lab company they want it to be sent to and processed with.

Patients are responsible for knowing which lab companies and tests that their insurance covers. Any test or fee that your insurance does not cover will be charged to you.

Heart Spring Health does NOT bill lab claims or service fees to insurance. Lab requests and samples are sent to lab companies who process and then bill to your insurance accordingly. All bills for lab work come from the lab company, NOT Heart Spring Health. In regards to any billing questions please contact the lab and/or your insurance directly.

ALL known fees for Time of Service labs are due at the Time of Service. IF a patient pays Time of Service prices through HSH and the lab requires additional fees for processing, those fees will be billed to the patient by HSH at a later date.
